Contemporary American Fine Art and Craft

**Meet the Artist Event
Friday, June 15th, 5-9pm
with painter Carolyn Edlund**

Kissed By The Light

Carolyn Hutchings Edlund is a master artist known and collected internationally. Her works are in collections in Canada, England, Germany, France, Italy, Singapore, and the United States. Born (1947) in Rhode Island, she currently resides in New York State's Hudson Valley.

"My paintings present the enduring beauty of nature.

Nature affects me at a visceral level...

My paintings are an exploration of time's passage not a frozen moment in time.

Nature offers a sense of escape."

Moonlight Reverie

Edlund is a master of a variety of media and subject portrayal. Her Hudson Valley landscapes are a significant elaboration on the Hudson Valley School's painterly traditions. Edlund also delivers satisfaction from her depiction of portraiture, equine, and still life subjects. She is known for intimate romanticism in all she portrays. Edlund focuses on oil and watercolor paints, as well as graphite drawings that are reminiscent of works by Albrecht Durer. She employs traditional techniques, using the finest quality materials to ensure longevity. One reviewer writes:

"Edlund's mystical landscapes are an exclamation of wonder, analogous to running through a field on the first day of spring and throwing your hands up in the air."
